Access Token Tool

The user tokens listed here are provided for convenience to test your apps. They expire like any other user access token and should not be hard coded into your apps. App tokens do not expire and should be kept secret as they are related to your app secret. For more information on how access tokens work and should be used, see the documentation. If you want to debug an access token issue, try using the access token debugger.

Endless Roller

User Token	You need to grant permissions to your app to get an access token.
App Token	GGI1169703296965497 GcSL1-3rcTZ_kyAX7GiLnXTDizU

[New #WeArePlay](#)

Creating a Play Console developer account

Why are we asking this?

Choosing an account type helps us to verify your contact information, keep your account safe, and improve the services we offer. This won't affect the features and services you can access in Play Console, or your eligibility for Google Play developer programs.

Google Play Console

To get started, choose an account type

Who are you creating an account for? [Learn more about which account type to choose](#)

Yourself

Choose if your account is for personal use. For example, if you're a student or hobbyist developer. You'll still be able to earn money on Google Play, and invite others to join your account.

[Get started](#) →

An organization

Choose if you're creating an account for an organization or business. For example, if you're involved in commercial, industrial, professional, or governmental activities. You may be asked to verify your organization.

[Get started](#) →

Create a Play Developer account for yourself

Why are we asking this?

Your app development plans
Providing information about your apps, and whether you'll earn money, helps us to understand your plans on Google Play. Your answer won't affect the features and services you can access in Play Console, how your app is displayed on Google Play, or your eligibility for Google

Apps

Number of apps

How many apps do you plan to publish on Google Play in the next 12 months?

If you're not sure, provide an approximate answer. This won't affect the number of apps you can publish.

1

Earning money on Google Play

Do you plan to earn money from the apps you publish on Google Play? This won't affect your ability to earn money from your apps, or the features and services you can access.

- ☒ No
- ☐ Yes

The App Store is designed to be a safe and trusted place for people to discover apps from talented developers just like you. Your app can influence culture and change lives, so that's why we're counting on you to help us protect users' privacy.

After clicking Get Started, you'll be asked to provide some information about your app's data collection practices. This information will appear on your app's product page, where users can see what data your app collects and how it's used.
